ISAAC HUTCHISON

Data Science Analysis, Visualization & Engineering:
Predictive Modeling · SQL · Python · R · Spark · Hadoop · Power BI · Tableau

CONTACT

Name: **ISAAC HUTCHISON**
Location: **BURBANK WA, USA**
Email: **lidonmayors@gmail.com**
Phone: **+1 918-990-9894**

PROFILE

Accomplished **Data Scientist** with 10+ years of experience in **data engineering, applied statistics, and AI/ML annotation**. Skilled in **predictive modeling, workflow optimization, and annotation QA leadership**, delivering compliance-driven solutions across biotech, healthcare, finance, and technology. Proficient in **SQL, Python, R, Spark, Hadoop, Tableau, and Power BI**, with a track record of turning complex datasets into actionable insights and building scalable, high-impact data science strategies.

Work Experience

NextGen AI Analytics – Seattle, WA *Director of Data Science & Annotation Strategy* **2026 – Present**

- Lead enterprise annotation and data science programs across healthcare, biotech, and finance.
- Drive predictive modeling and workflow optimization, cutting cycle times by 45%.
- Manage cross-functional teams delivering advanced analytics solutions.

Seattle Genetics Inc. – Bothell, WA *Biotech Research & Development Director* **2021 – 2026**

- Integrated data science workflows into biotech research, boosting model accuracy by 25%.
- Oversaw multilingual AI/ML annotation projects under ISO compliance.
- Automated pipelines with Python and Spark, reducing manual work by 40%.

Data Annotation Solutions – Seattle, WA *Senior Annotation & Data Science Lead* **2017 – 2021**

- Directed 25-person annotation team for text, image, and biomedical datasets.
- Cut annotation errors by 35% through QA protocols.
- Built Python/R models to validate annotation consistency.

Education

- **University of Washington – Seattle, WA** *Master of Science in Data Science & Analytics* **2014 – 2016**
- **University of Washington – Seattle, WA** *Bachelor of Science in Applied Statistics* **2010 – 2014**
- **MIT Professional Education – Cambridge, MA** *Graduate Certificate in Machine Learning & AI* **2016**
- **Google Cloud Professional Training – Remote** *Professional Certificate in Data Engineering* **2019**

Certifications:

- AWS Machine Learning Specialty (2018)
- Tableau Professional Certification (2019)
- Lean Six Sigma Green Belt (2020)

Skills

- **Data Science & Engineering:** Predictive Modeling, ETL, Workflow Optimization
- **Programming:** SQL, Python, R, Spark, Hadoop
- **Visualization:** Tableau, Power BI
- **AI/ML Annotation:** QA Leadership, Compliance, Workflow Automation
- **Leadership:** Team Management, Cross-functional Collaboration
- **Cloud & Big Data:** Google Cloud, AWS ML, Hadoop Ecosystem
- **Statistics & Analytics:** Applied Statistics, Hypothesis Testing, KPI Tracking
- **Workflow Tools:** Lean Six Sigma, Process Automation, Technical Documentation

Pacific Northwest Data Labs – Bellevue, WA *Data Science Analyst & Workflow Engineer* **2015 – 2017**

- Designed ETL pipelines and predictive models for healthcare/biotech projects.
- Developed Tableau dashboards to track annotation progress.
- Integrated SQL and Spark workflows into enterprise systems.

Evergreen Analytics – Redmond, WA *Data Visualization Specialist (Remote, Part-Time)* **2013 – 2015**

- Built Tableau and Power BI dashboards for enterprise clients.
- Delivered statistical insights to optimize workflows.

Cascade Tech Services – Spokane, WA *Junior Data Scientist (Remote Internship)* **2011 – 2013**

- Supported annotation projects for early AI/ML systems.
- Wrote SQL and Python scripts for data cleaning and QA

Projects & Highlights

- Developed enterprise-wide annotation QA framework reducing errors by 35%.
- Built predictive models that improved biotech trial accuracy by 25%.
- Delivered dashboards adopted across multiple departments, enhancing executive decision-making.

Goals

- Advance leadership in AI/ML annotation and workflow optimization.
- Drive compliance-driven data science solutions across regulated industries.
- Mentor and grow cross-functional teams in data engineering and analytics.

Professional Philosophy

- Precision and compliance are the foundation of impactful data science.
- Scalable workflows and clear documentation ensure sustainable innovation.
- Collaboration across disciplines drives meaningful AI/ML outcomes.

Volunteer & Community Engagement

- Mentor junior data scientists through local coding bootcamps in Seattle.
- Volunteer with community tech initiatives to improve digital literacy.
- Collaborate with universities on applied AI research projects.

Languages

- English (native)
- Swahili

Professional Affiliations

- Member, Association for Computing Machinery (ACM)
- Member, Institute of Electrical and Electronics Engineers (IEEE) – Data Science Chapter
- Member, International Association for Data Annotation Professionals

Interests

- Advancing AI/ML annotation standards and compliance frameworks
- Data visualization and workflow automation
- Mentoring upcoming data scientists and annotators
- Collaborating with universities and startups on applied AI projects

Key Achievements

- Reduced annotation errors by **35%** through QA protocols at Data Annotation Solutions.
- Improved predictive model accuracy by **25%** at Seattle Genetics through integrated data science workflows.
- Cut annotation cycle times by **45%** at NextGen AI Analytics via workflow optimization.
- Delivered enterprise dashboards adopted across multiple departments, enhancing executive decision-making.
